

Scientific Society of Hellenic Medical Students

Department of Patras

1st Clinical Course of Internal Medicine

for Medical Students and Medical Graduates

27-28th of September 2014

Agora Argiri Events Hall

Certificate of Attendance will be issued

Greeting of the Student Organizing Committee

The Department of Patras of the Scientific Society of Hellenic Medical Students with co-organizer, Kyriazopoulou Venetsana (Professor of Internal Medicine - Endocrinology in School of Medicine, University of Patras) is delighted and honored to invite you to the 1st Clinical Course of Internal Medicine for Medical Students and Medical Graduates which will take place on September 27th and 28th, 2014 at the Agora Argiri Events Hall, in the city of Patras.

The main objective of this course is to enrich our knowledge and define questions that have been raised upon basic matters of Internal Medicine during its practice on a clinical level. Helpers in our effort, whom we would like to thank kindly for their massive response, are distinguished scientists with great experience from the Medical School of Patras, who will share their knowledge upon the most common diaforognostical problems of the daily clinical act, through clinical lessons and interactive speeches.

Furthermore, we would like to thank all the members of the Student Organizing Committee of the Department of Patras, whom with passion, fervor and creative ideas have contributed to the development of the Department so far and to the organizing of this Course.

Completing 4 years since the reestablishment of the Department of Patras and having as an advantage the successful organizing of an innovative and well-organized Panhellenic Students Conference - the 19th Scientific Congress for Hellenic Medical Students- hoping to prove worthy of your trust and expectations, we're welcoming you at our 1st Clinical Course of Internal Medicine for Medical Students , Medical Graduates and students from other Medical Sciences.

The presidents of the Student Organizing Committee

Marantos Theodoros
*General Secretary of the
P.C. of the Scientific Society
of Hellenic Medical Students*

- Internal Medicine
- Pulmonology
- Cardiology
- Gastroenterology
- Hepatology
- Nephrology
- Endocrinology
- Diabetes
- Infectious Diseases
- Haematology

Department of Patras- A brief story ...

The Department of Patras, for the last years owns a very particular and at the same time fascinating part in the history of the Scientific Society of Hellenic Medical Students. It maintains an indispensable part of the Medical School of Patras' enormous range of activities and the partnerships which it has formed with numerous medical scientific events.

In our possession are included: 1) multiple one-day conferences with matters that concern medical affairs, like the "Management of Emergency Cases", "Sexually Transmitted Diseases ", " Electrolyte disorders" but also matters of social content, like "Addictions" and "Aiding in the Sexual Behavior of the Youth", 2) workshops, such as "Workshop: An Imaging Approach of Anatomical structures" and the three-day Workshop "Surgical Emergencies and trauma suture" and 3) programs of humane content, like the program "Voitho ara Iparxo" (support program for the Social Solidarity Clinic). We feel we also have to mention that, the Department of Patras has participated in many Panhellenic events (10th Pan-Peloponnese Medical Congress, 24th Panhellenic Conference on AIDS, The Youth Talks about AIDS, 8th Diabetes Conference) but also in every activity of the S.S.H.M.S.

Most precious moment of the Department of Patras was the organizing of the 19th Scientific Congress of Hellenic Medical Students and the 7th International Forum of Medical Students and Junior Doctors for the first time at Patras and only 3 years after its reestablishment. The 19th Scientific Congress of Hellenic Medical Students was held on April 19th-21th, 2013 at the Conference and Cultural Centre of the University of Patras. The Scientific Congress attracted the interest of approximately 1000 conferrers, students and scientists from Greece and abroad. The organizing of an international conference was the result of hard and well-coordinated work, creativity and the inquiring mind of the Medical Students of Patras.
